

C1: Registration of a new user.

Type	Priority	Estimate	References
Acceptance	Medium	None	None
Automation Type	None		

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Page <https://temp-mail.org/pl/> is open in the second window of the browser.

Steps

- 1 Using the scroll bar on the page <https://demo.guru99.com/V4/>, scroll down. At the bottom left, you will notice "Steps To Generate Access." In the first point titled "Visit," click "here."
The page with the option to create a new user in Guru99 Bank will be displayed.
- 2 We go to the website <https://temp-mail.org/pl/> (open in the second browser window), generate a temporary email address, and copy it.
We return to the Guru Bank99 website and paste the copied temporary email into the field titled "Email ID" and click on "Submit" below.
The page with login details for accessing the demo site has been displayed.
Note: Each user will have a different generated UserID and Password.
Information:
User ID : mngr549292
Password : qUpAvus
This access is valid only for 20 days.
- 3 We return to the <https://demo.guru99.com/V4/> website, enter the generated login in the "UserID" field, enter the generated password in the "Password" field, and click on the "LOGIN" button located below.
The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.

C2: Logging in using an existing user account.

Type	Priority	Estimate	References
Acceptance	Medium	None	None
Automation Type			
None			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Login details for the account: UserID: mngr549292, Password: qUpAvus .

Steps

- 1 We enter our UserID and Password, then click the "LOGIN" button.

The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.

C3: Logging in using an existing user but with an incorrect UserID.

Type	Priority	Estimate	References
Acceptance	High	None	None
Automation Type			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Login details for the account: UserID: mngr549292 -> change for mngr544242, Password: qUpAvus

Steps

- 1 In the UserID field, enter mngr544242, enter the password in the Password field, and click the "LOGIN" button.

The page will display an error "User or Password is not valid." After clicking "OK" on the right side, it will redirect us back to the main page to enter the correct UserID and Password again.

C4: Logging in using an existing user but with an incorrect Password.

Type	Priority	Estimate	References
Acceptance	High	None	None
Automation Type			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Login details for the account: UserID: mngr549292, Password: qUpAvus change for qUpAswu

Steps

- 1 In the UserID field, enter mngr549292, in the Password field enter qUpAswu, and then click the "LOGIN" button at the bottom.

The page will display an error "User or Password is not valid." After clicking "OK" on the right side, it will redirect us back to the main page to enter the correct UserID and Password again.

C5: Logging in using an existing user but with a modified UserID.

Type	Priority	Estimate	References
Acceptance	High	None	None
Automation Type			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Login details for the account: UserID: mngr549292 change for MngR549292, Password: qUpAvus

Steps

- 1 In the UserID field, enter MngR549292, in the Password field enter the password, and then click the "LOGIN" button located below. The page will display an error "User or Password is not valid." After clicking "OK" on the right side, it will redirect us back to the main page to enter the correct UserID and Password again.

C6: Logging in using an existing user but with a modified password.

Type	Priority	Estimate	References
Acceptance	High	None	None
Automation Type			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Login details for the account: UserID: mngr549292, Password: qUpAvus change for QUPAvuS

Steps

- 1 Enter the correct UserID, but in the Password field, enter the modified password: QUPAvuS, then click the "LOGIN" button located below.
The page will display an error "User or Password is not valid." After clicking "OK" on the right side, it will redirect us back to the main page to enter the correct UserID and Password again.

C7: Creating a New Customer.

Type	Priority	Estimate	References
Acceptance	Medium	None	None
Automation Type			
None			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Page <https://devskiller.com/datafairy/> is open in the second window of the browser - generating test data.

Login details for the account: UserID: mngr549292, Password: qUpAvus

Steps

- 1 We enter the correct data in the "UserID" and "Password" fields, then click the "LOGIN" button located below. The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.
- 2 In the Manager's panel located on the left side, click the "New Customer" button. Redirecting to the page with the option to create a new customer.

- 3 Entering the data generated using "<https://devskiller.com/datafairy/>", manually inputting the "PIN" and "State," and clicking the "Submit" button below.
Note: The entered data cannot contain diacritical or punctuation marks.

The page will display "Customer Registered Successfully!!!" along with the customer's details.

C8: Creating a New Customer using data that is assigned to another customer.

Type	Priority	Estimate	References
Acceptance	High	None	None
Automation Type	None		

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Page <https://devskiller.com/datafairy/> is open in the second window of the browser - generating test data.

Login details for the account: UserID: mngr549292, Password: qUpAvus

Steps

- We enter the correct data in the "UserID" and "Password" fields, then click the "LOGIN" button located below. The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.
- In the Manager's panel located on the left side, click the "New Customer" button.

Redirecting to the page with the option to create a new customer.

- Entering the same data that was used in the previous test case. After entering the data, click the "Submit" button.

The page will display the message "Email Address Already Exist!!". After clicking the "Ok" button located on the right, it will redirect us back to the "Add New Customer" page to enter correct data.

C9: Creating a New Customer with a date of birth that has not occurred yet.

Type	Priority	Estimate	References
Acceptance	High	None	None
Automation Type			
None			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Page <https://devskiller.com/datafairy/> is open in the second window of the browser - generating test data.

Login details for the account: UserID: mngr549292, Password: qUpAvus

Steps

- 1 We enter the correct data in the "UserID" and "Password" fields, then click the "LOGIN" button located below. The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.
- 2 In the Manager's panel located on the left side, click the "New Customer" button. Redirecting to the page with the option to create a new customer.

The screenshot shows the 'Guru99 Bank' manager interface. On the left sidebar, under 'Customer', there is a 'New Customer' link. The main content area is titled 'Add New Customer'. It contains several input fields: 'Customer Name' (with placeholder 'John Doe'), 'Gender' (radio button selected for 'Male'), 'Date of Birth' (date picker set to '01-01-2025'), 'Address' (text area), 'City' (dropdown menu), 'State' (dropdown menu), 'Zip' (text field), 'PIN' (text field), 'Mobile Number' (text field), 'Email' (text field), and 'Password' (text field). There is also a 'Submit' button at the bottom right of the form.

- 3 Entering data generated using "<https://devskiller.com/datafairy/>", manually inputting "PIN" and "State," entering a date in the "Date of Birth" field that has not occurred yet, and then clicking the "Submit" button below.

Note: The entered data cannot contain diacritical or punctuation marks.

This screenshot is identical to the one above, showing the 'Add New Customer' form on the Guru99 Bank manager page. The fields are the same, including the date of birth set to 01-01-2025, which is an invalid date. The rest of the form fields are empty or show placeholder text.

- 3 The page will display an error and redirect us back to the "Add New Customer" page to enter correct data.

C10: Creating a New Customer with an outdated date of birth.

Type	Priority	Estimate	References

 - Initial deposit: 5000
Clicking the "Submit" button below.

- The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.
- The page will display with the option to create a new customer account.
- Redirecting to the page with the information: "Account Generated Successfully!!!" along with the details of the created account.

Account Generated Successfully!!!	
Customer ID:	82840
Account ID:	10905
Customer Name:	John Doe
Initial:	5000
Account Type:	Current
Date of Opening:	2024-11-20
Balance:	5000

C24: Creating a new savings account for an existing customer in the database.

Type	Priority	Estimate	References
Acceptance	Medium	None	None
Automation Type			
None			

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Login details for the account: UserID: mngr549292, Password: qUpAvus

Customer ID: 82840 (Creating a new customer to obtain an active "Customer ID".)

Steps

- We enter the correct data in the "UserID" and "Password" fields, then click the "LOGIN" button located below. The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.
- In the Manager's panel located on the left side, click the "New Account" button. The page will display with the option to create a new customer account.

The screenshot shows the Guru99 Bank Manager's panel. On the left sidebar, there is a 'New Account' button under the 'Customer' section. The main area has a form titled 'Add New Account Here!' with fields for 'Customer ID' (set to '82840'), 'Account Type' (set to 'Savings'), and 'Initial deposit' (set to '8000'). Below the form is a 'Submit' button.

3 Entering the data:
• Customer ID: 82840
• Selecting Account Type: "Savings"
• Initial deposit: 8000
Clicking the "Submit" button below.

The screenshot shows the Guru99 Bank Manager's panel after a successful account creation. A message 'Account Generated Successfully!!!' is displayed. To its right, a table shows the newly created account details: Account ID (1010), Customer ID (82840), Customer Name (Vivek Mehta), Initial (8000), Account Type (Savings), Acc. C. Crating (2024-11-05), and Due Date (8000). The 'Customer' section of the sidebar is also visible.

C25: Creating a new customer account for a non-existing customer in the database.

Preconditions

Page <https://demo.guru99.com/V4/> must be open in the browser.

Login details for the account: UserID: mngr549292, Password: qUpAvus

Account No: 131435

Steps

- 1 We enter the correct data in the "UserID" and "Password" fields, then click the "LOGIN" button located below. The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.
- 2 In the Manager's panel located on the left side, click the "Deposit" button. The page will be displayed with the option to deposit a certain amount into the account.

The screenshot shows the Guru99 Bank Manager's Page. The top navigation bar includes links for Home, Demo Site, Testng, Selenium, Java Project, and Java. Below the navigation is a main menu with items like New Customer, Add Customer, Update Customer, New Account, Edit Account, Deposit, Withdraw, Transfer, Change Password, Delete Account, and Logout. A sidebar on the left lists options such as New Customer, Add Customer, Update Customer, New Account, Edit Account, Deposit, Withdraw, Transfer, Change Password, Delete Account, and Logout. The central area contains a form titled 'Amount Deposit Form' with fields for Account No, Amount, and Description, each with a 'Submit' button.

3 Entering the data:

- Account No: 131435
- Amount: 2000
- Description: Home

Clicking the "Submit" button below.

This screenshot shows the Guru99 Bank Manager's Page after a successful deposit. The message 'The amount has been successfully added to the account.' is displayed above the deposit form. The deposit form itself is identical to the one in the previous screenshot, with fields for Account No (131435), Amount (2000), and Description (Home). The 'Submit' button is visible at the bottom of the form.

Redirection to a page with the information "The amount has been successfully added to the account," followed by transfer to the "Amount Deposit Form" page.

C31: Verification of the deposited amount using a non-existing customer account.

Steps

- 1 We enter the correct data in the "UserID" and "Password" fields, then click the "LOGIN" button located below. The page shows: "Welcome To Manager's Page of Guru99 Bank" along with the "Manager Id" of the logged-in user: mngr549292. On the left side, options related to the account have appeared.
- 2 In the Manager's panel located on the left side, click the "Deposit" button. The page will be displayed with the option to deposit a certain amount into the account.

The screenshot shows the Guru99 Bank Manager's Page. The 'Deposit' button is highlighted with a red circle. The page includes a navigation bar with links like 'Home', 'Logout', 'New Project', 'Edit Project', 'Delete Project', 'Import Projects', 'Export Projects', 'Merge Projects', and 'New Task'. On the left, there's a sidebar with options like 'New Account', 'Edit Account', 'New Account', 'Edit Account', 'Deposit', 'Withdraw', 'Interest', 'Change Password', 'Delete Project', 'New Project', 'Customer Address', and 'Logout'. The main area has a form titled 'Amount Deposit Form' with fields for 'Account No' (containing '233789'), 'Amount' (containing '2000'), and 'Description' (containing 'Home'). A 'Submit' button is at the bottom right of the form.

- 3 Entering the data:

Account No: 233789

Amount: 2000

Description: Home

Clicking the "Submit" button below.

This screenshot shows the same Guru99 Bank Manager's Page as the previous one, but the 'Amount Deposit Form' has been submitted. A red pop-up window appears in the center of the screen with the message 'Account does not exist.' The rest of the page remains the same, including the sidebar and the main deposit form.

A pop-up window will appear with the message "Account does not exist."

- 4 Clicking the "OK" button.

The page will redirect to the "Amount Deposit Form" to enter the correct "Account No."

C32: Verification of the ability to enter letters in the "Amount" field.
